

MOOG Wine Barrel Cleaner

Barrel Cleaning – The Efficient & Economical Way!

TYPE URC

Portable internal cleaner for wooden barrels, which enters the bung hole from the underside of a barrel on a rack situation.

For Barriques, Hogshead & Pungeons

The Type "URC" unit features the well proven MOOG, rotary cleaning head and requires minimal water consumption. It can be connected to any commercial high pressure cleaner. The rotary cleaning head has two spray nozzles that are driven by an electric geared motor, that rotate about their horizontal and vertical axis, resulting in a complete coverage of every part of the internal surface. Robust stainless steel trolley arrangement for easy maneuverability around the winery.

The MOOG Wine Barrel Cleaner Type URC is compact making it easy for handling around the winery

The MOOG Wine Barrel Cleaner, Type URC in position ready for operation
